## Education

---

2024/03 – 2024/06	<b>C# &amp; .NET Web Development Training Program</b> <i>CoderFoundry</i> Rigorous 12 week program where I used the skills I was taught to build multiple full-stack enterprise level projects, using the various technologies listed below.
2018/08 – 2022/06 San Juan, Puerto Rico	<b>Bachelor's Degree in Computer Science</b> <i>Interamerican University Metro Campus</i>

## About me

---

I'm an aspiring Software Developer with a skillset currently involving C#, .NET, Blazor, JS, CSS, HTML. At CoderFoundry I was able to build multiple full-stack projects and become an industry ready asset, some examples you'll find listed in my portfolio website are my Bugtracker [🔗](#) and my Dev Blog. These are both full-stack projects created to run on multiple render modes and built with a specific design pattern in mind, which allowed me to achieve this functionality.

I make sure to continue building web apps using the C# and .NET ecosystem frequently. I'm a candidate with strong development fundamentals and ready to become an asset to the tech industry in any capacity.

## Professional Experience

---

2022/02 – 2023/03 San Juan, Puerto Rico	<b>Customer Service Representative</b> <i>Internal Revenue Service</i>
2021/10 – 2022/01 San Juan, Puerto Rico	<b>Customer Account Services</b> <i>Optum Health, United Health Group</i>
2019/11 – 2020/02 San Juan, Puerto Rico	<b>Customer Service/Tech Representative</b> <i>LinkActiv GFR Media</i>

## Skills

---

C#	ASP.NET
.NET & Blazor	Web API (Rest)
JavaScript	HTML
